Dkt. 41426-A-PCT-US/JPW/MAF/AJD

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants: Ron S. Israeli et al.
Serial No.: 08/403,803 Group Art Unit: 1647
Filed: March 17, 1995 Examiner: Stephen Gucker
For: PROSTATE-SPECIFIC MEMBRANE ANTIGEN

1185 Avenue of the Americas
New York, New York 10036
March 26, 2004

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

This Supplemental Information Disclosure Statement is submitted under 37 C.F.R. §1.97(d)(2) to supplement the Information Disclosure Statements filed on July 11, 1997, March 20, 2000, October 20, 2000, January 16, 2001, August 7, 2001, February 21, 2002 and May 7, 2002 in connection with the above-identified application.

In accordance with their duty of disclosure under 37 C.F.R. §1.56, applicants direct the Examiner's attention to the following references which are listed on the attached PTO-1449 form (**Exhibit A**), and attached hereto as **Exhibits 1-59**:

1. U.S. Patent No. 5,672,592, issued September 30, 1997 to Paul F. Jackson and Barbara S. Slusher (**Exhibit 1**);
2. U.S. Patent No. 5,795,877, issued August 18, 1998 to Paul F. Jackson et al. (**Exhibit 2**);
3. U.S. Patent No. 5,804,602, issued September 8, 1998 to Barbara S. Slusher et al. (**Exhibit 3**);
4. U.S. Patent No. 5,863,536, issued January 26, 1999 to Paul F. Jackson et al. (**Exhibit 4**);
5. U.S. Patent No. 5,880,112, issued March 9, 1999 to Paul F.

61. Wright, Jr., G.L, Feng, Q., Beckett, M.L., Lopes, D. and Gilman, S.C. (1990) Characterization of a new prostate carcinoma-associated marker: 7E11-C5. Antibody, Immunoconjugates and Radiopharmaceuticals 3: 89 (Abstract 193); and
62. Young, R.A. and Davis, R.W. (1983) Efficient isolation of genes by using antibody probes. Proc. Natl. Acad. Sci. USA 80: 1194-1198.

The Examiner is respectfully requested to make these references of record in the present application by initialing and dating the PTO 1449 form provided as **Exhibit A**, and returning a copy of the executed form to applicants' representatives.

Applicants note that the above-cited references, 48-53, 55, 57 and 58, are patent applications that are related to the present application and which have neither been issued as patents nor published. References 48-51 are continuations of PCT International Application No. PCT/US93/10624, published under International Publication No. WO 94/09820. A copy of International Publication No. WO 94/09820 was submitted to the Patent Office as reference 4 in an Information Disclosure Statement filed on July 11, 1997 in connection with the present application. Thus, pursuant to 37 C.F.R. §1.98(c), copies of references 48-51 are not provided herein as they are cumulative. However, pursuant to 37 C.F.R. §1.98(a)(2), copies of the claims pending in references 48-51 are provided as **Exhibits 48-51**, respectively.

Reference 52 is a continuation of U.S. Serial No. 08/325,553. A copy of U.S. Serial No. 08/325,553, now U.S. Patent No. 5,538,866, was submitted to the Patent Office as reference 3 in the Information Disclosure Statement filed on July 11, 1997 in connection with the present application. Thus, pursuant to 37

Applicants: Ron S. Israeli et al.
Serial No.: 08/403,803
Filed: March 17, 1995
Page 7

C.F.R. §1.98(c), a copy of reference 52 is not provided herein as it is cumulative. However, pursuant to 37 C.F.R. §1.98(a)(2), a copy of the claims pending in reference 52 is provided as **Exhibit 52**.

References 53 and 54 are continuations of U.S. Serial No. 08/705,477, now U.S. Patent No. 6,569,432, a copy of which is enclosed as **Exhibit 47**. Pursuant to 37 C.F.R. §1.98(c), copies of references 53 and 54 are not provided as they are cumulative. However, pursuant to 37 C.F.R. §1.98(a)(2), copies of the claims pending in references 53 and 54 are provided as **Exhibits 53** and **54**, respectively.

Reference 55 (U.S. Serial No. 10/614,625) is a continuation-in-part of U.S. Serial No. 10/433,694, which is a continuation of U.S. Serial No. 08/705,477, now U.S. Patent No. 6,569,432, a copy of which is enclosed as **Exhibit 47**. Applicants attach hereto as **Exhibit 55** a copy of the specification and claims (corresponding to U.S. Serial No. 08/705,477) filed for U.S. Serial No. 10/614,625, together with a July 2, 2003 Preliminary Amendment (copy attached as **Exhibit 56**) which amended the specification and claims of U.S. Serial No. 10/614,625. The amended claims recited in this Preliminary Amendment are currently pending.

References 57 and 58 are continuations of PCT International Application No. PCT/US96/02424, published under International Publication No. WO 96/26272, a copy of which is enclosed as **Exhibit 59**. Pursuant to 37 C.F.R. §1.98(c), copies of references 57 and 58 are not provided herein as they are cumulative. However, pursuant to 37 C.F.R. §1.98(a)(2), a copy of the claims pending in references 57 and 58 are provided as **Exhibits 57** and **58**, respectively.

Applicants also note that references 60, 61 and 62 were

Applicants: Ron S. Israeli et al.
Serial No.: 08/403,803
Filed: March 17, 1995
Page 8

previously cited (as references 25, 34 and 35 respectively) and copies provided to the Examiner in an Information Disclosure Statement filed July 11, 1997. However, applicants have noticed that the listing of these three references on the accompanying PTO-1449 form did not include their publication dates which, in other instances, has resulted in the Examiner not considering such references. Applicants therefore cite these references again in the instant Information Disclosure Statement, with the reference dates included on the attached PTO-1449 form (**Exhibit A**). Copies of these references are not provided as they were previously submitted in the July 11, 1997 Information Disclosure Statement.

Further to the above, applicants direct the Examiner's attention to the article by Su et al. entitled "Alternatively Spliced Variants of Prostate-specific Membrane Antigen RNA: Ratio of Expression as a Potential Measurement of Progression" (Cancer Research 55: 1441-1443, 1995), dealing with a splice variant of prostate specific membrane antigen, which was cited by applicants in a Supplemental Information Disclosure Statement and Certification Pursuant To 37 C.F.R. §1.97 (e)(1), filed May 7, 2002 in the present application. The first named author of the subject paper, Dr. Sai L. Su, has alleged that he was a co-inventor of claims directed to a splice variant of prostate specific membrane antigen contained in U.S. Patent No. 5,935,818 to Israeli et al. which issued August 10, 1999 and which is assigned to the Assignee of the present case. The subject matter of the claims of U.S. Patent No. 5,935,818 is not, however, the subject matter claimed in the present application. Applicants' representatives are investigating the claim raised by Dr. Su.

If a telephone interview would be of assistance in advancing prosecution of the subject application, applicants' undersigned attorneys invite the Examiner to telephone either of them at the

number provided below.

Pursuant to 37 C.F.R. §1.97(d)(2) and 1.17(p), a fee of \$180.00 is required for filing this Supplemental Information Disclosure Statement, and a check for this amount is enclosed. No additional fee is deemed necessary in connection with the filing of this Supplemental Information Disclosure Statement. However, if any additional fee is required, authorization is hereby given to charge the amount of such fee to Deposit Account No. 03-3125.

Respectfully submitted,
